

WIMPOLE STREET DENTAL

Celebrating five years in nails and lashes

Words **YVETTE MURREL**

Wimpole Street Dental is a leading practice in the heart of London, where world-renowned dentist Dr Richard Marques offers an unrivalled range of services. Known by the industry as the 'King Of Smiles', he is regarded as one of the most sought after dentists around and has built up a loyal, star-studded customer base thanks to his gentle approach and dazzling results.

A speciality of Dr Marques and the popular practice, is restorative dentistry and teeth whitening. 'Enlighten Teeth Whitening' is a particular favourite here; a two-part deep treatment made up of a 1-hour in-clinic session that is followed up at home care.

Initial treatment begins at the practice with the Philips Zoom Whitespeed - a laser light activator aimed directly onto the teeth. This may sound a bit daunting, but the friendly team at Wimpole Street pride themselves on excellent patient care and always ensure your worries are put at ease. Results from the treatment are instantaneous, with a significantly brighter a smile visible within the hour. ♦

Estée Lauder

Nothing pops against a white dress like a tan. However, brides who can't escape to the Bahamas before the big day need not panic: Estée Lauder's cult Bronze Goddess collection can help you fake it. Brush on a dusting of the Bronzing Powder, a few dabs of Pure Colour Illuminator to highlight your cheekbones and finish it off with a slick of Bronze Goddess Shimmering Body Oil and you will dazzle down that aisle. esteelauder.co.uk
